Subject: RE: For TCT next Wed at 0930 EPA-OOO: Updated Appendix B1 and B2 for TCT meeting materials

Tom – DEQ will see the revised language when we have incorporated all TCT comments into the document and share it with the LWG. We are trying to get this completed and ready to share in the next few weeks. We will be discussing schedule at the next TCT (next Wednesday).

Thanks,

Kristine Koch

Sean-

I appreciate the desire to streamline review of the FS, but it is important that DEQ understands and agrees with the derivation of COCs, PRGs, etc., used by EPA as the foundation of the FS. We're not asking for another round of comments- we haven't seen it yet! When will the first time we see such text?

Thanks-
Tom

Hi Tom, We won't be adding an extra review step at this point—rather, we want to give you an idea of what the revision will entail—in other words it won't be going out for another round of comment per se.

Thanks

S

Sean and Kristine-

The 1/8/15 EPA response table for FS Section 2, Appendix B2 still has responses shaded in orange, indicating that a comment is undergoing EPA review. Please clarify next steps for the orange- (and yellow-)shaded comments. For example, for the benthic approach the text states "additional text will be added to Appendix B2 explaining how the COC list for protection of benthic invertebrates and fish was derived." When will we see and get to comment on the text describing this derivation/approach?

Thanks-
Tom

Hello everyone, Please see the attached draft responses for reference in our discussions next week during the TCT. Suggested changes to the agenda always welcome.

Thank you.
